EnergyWise Interruptible Irrigation Program

LREC's Interruptible Irrigation Program is a cost-saving option for agricultural irrigation systems. Members receive a \$6.05 horsepower demand credit in exchange for allowing the cooperative to control or interrupt irrigation once a day for up to four hours. The cooperative attempts to schedule control times consistently between 4 p.m. and 8 p.m. However, LREC reserves the right to control irrigation systems any time of the day during periods of unusually high demand. Either automatic or manual restart systems are eligible.

EnergyWise Interruptible Irrigation Application

INTERRUPTIBLE IRRIGATION

\$6.05/HP DEMAND CREDIT

System Irrigation horsepower _____HP

Name _____

Account No. _____ Location No. _____

I will allow LREC to inspect system for proper operation or maintenance when necessary. I agree to abide by LREC regulations. Failure to meet these requirements or violation of this agreement because of unauthorized revisions or tampering shall entitle LREC to terminate this agreement and remove all cooperative-owned load management equipment. LREC is not liable for economic loss due to any type of malfunction. LREC retains the right to deny participation in load management programs if load control is not beneficial to the cooperative. Either party may terminate this agreement by giving the other party a 30-day, written notice.

Owner is responsible for contacting LREC when ready for load management control device.

I am ready for LREC to install load management control device; irrigation system is complete.
