

EnergyWISE ETS Heating

Together We Save Energy and Money

Savings and comfort while heating your home with a Steffes Room Heater

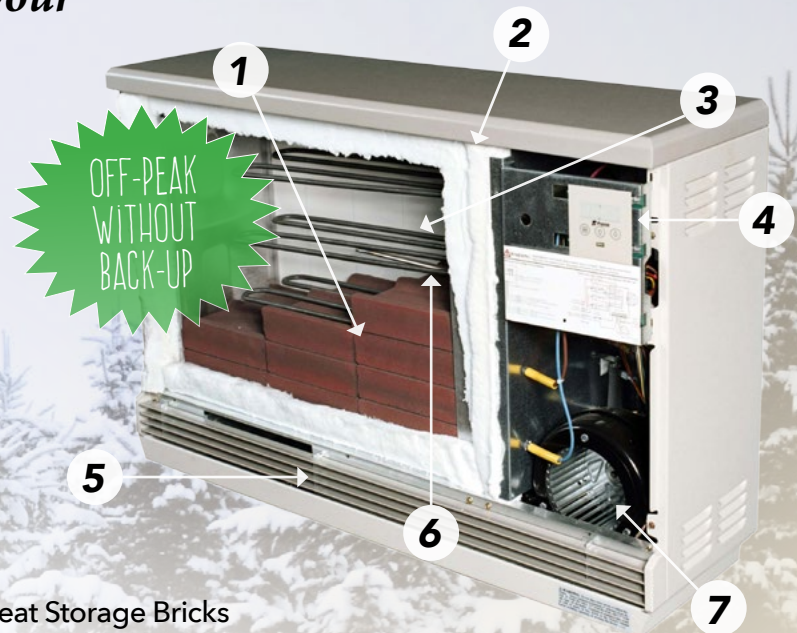

Get the Off-Peak Advantage!

Electricity is more expensive during the day (*on peak*) when we use a lot of it. LREC has lower rates for electric heating systems that use electricity at night (*off-peak*) and other low usage times.

How it Works

The Steffes Room Heater stores low-cost, off-peak electricity as heat in its specially designed ceramic bricks. The amount of heat stored is regulated automatically based on the heating needs of your home and outdoor temperatures.

The heater's built in room thermostat and fan deliver the stored heat into your home when needed to provide comfortable, even temperatures through the house. It's quiet, easy to use, and can satisfy your desired comfort 24 hours a day.

1. Heat Storage Bricks
2. Insulation
3. Heating Elements
4. Temperature Control and Display Panel
5. Warm Air Discharge
6. Brick Core Temperature Sensor
7. Fan

- ETS heater stores off peak energy—no back-up system required
- Qualifies for 4.8¢ ETS rate and 5.4¢ dual fuel rate
- Expanded charge hours now available for 4.8¢ ETS rate
- Up to \$50 per KW rebate available
- **EASY-PAY** available—pay for heaters over 48 months on your bill
- Comfortable radiant heat with quiet variable speed fan
- Great for single room or entire home
- Replaces wood stoves, wall furnaces or electric baseboard
- LREC will size and price a Steffes system for your needs

ENERGY WISE

Specifications | Standard voltage is 240 Volts AC

Model	KW Input	Weight (appr)	Length	Height	Depth
2102	3.0	267 lbs	30"	24.5"	10.5"
2103	4.5	376 lbs	37"	24.5"	10.5"
2104	6.0	478 lbs	44"	24.5"	10.5"
2105	7.5	585 lbs	51"	24.5"	10.5"
2106	9.0	692 lbs	58"	24.5"	10.5"

The appropriate model and KW input for your application will depend on the heat loss of the area to be heated and the number of LREC off-peak (charging) hours available. LREC will size and price a Steffes room unit system for your needs.

ETS Space Heating Charge & Control Hours

	Charge Hours (On)	Control Hours (Off)
Daily	(11 pm - 7 am) (2 pm - 4 pm)	(7 am - 2 pm) (4 pm - 11 pm)
Total	10 hours	14 hours
